DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Morales (US 6,607,137 B2).

Morales teaches an apparatus that permits citizens/voters to vote for a candidate seeking to be elected to public office from the comfort of their home or office by transferring voter information from the home or office where the apparatus rests to a central tallying office (col. 3, lines 5-32) that records each voter's vote by matching his or her identification number with his or her name (col. 3, lines 25-32; col. 4, lines 47-62; abstract; col. 5, line 15 through col. 8, line 34).
